

## Ballast Roof Mounted Structure

- Ballast-mounted system protects roofs from penetration
- Aluminum alloy construction withstands high wind loads
- Can assembled with a wind breaker to reduce the uplift force.
- Highly pre - assembled for easy on - site installation.

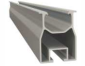

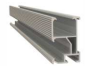

## Metal Roof Mounted Structure

- 100% Corrosion Resistant Aluminum to ensure 25years practical life
- Versatile roof clamp options to guarantee “No Leak”
- Highly pre-assemble for easy on-site installation
- Customized design to fit a wide variety of corrugated profiles

### Roof rail series

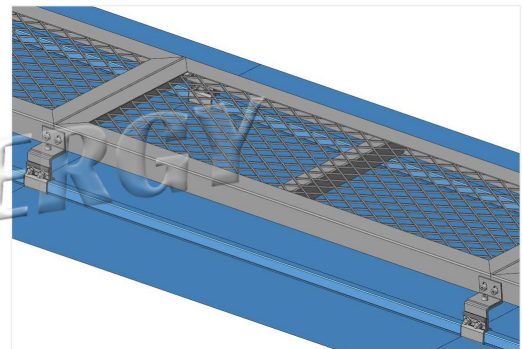

H36 Rail	HX40 Rail	BHX40 Rail	R46 Rail	R47 Rail
				

### Roof clamp series

Standing seam 10	Standing seam 21	Angle clamp 28	Ladder clamp	Universal clamp	Standing seam 14	Standing seam 7
						

## Roof Walkway

- Outer frame welded with steel gratings features a robust structure
- Simplified structure for easy on-site installation
- Bearing loading up to 250kgs to ensure the safety
- Assembled with roof clamp protects roof from penetration

## Roof Guardrail

- Simplified structure for easy on-site installation
- Assembled with roof clamp protects roof from penetration
